The Responsibility Code

- Always stay in control, and be able to stop or avoid other people or objects.
- People ahead of you have the right of way. It is your responsibility to avoid them.
- You must not stop where you obstruct a trail, or are not visible from above.
- Whenever starting downhill or merging into a trail, look uphill and yield to others.
- Always use devices to help prevent runaway equipment.

- Observe all posted signs and warnings. Keep off closed trails and out of closed areas.
- Prior to using any lift, you must have the knowledge and ability to load, ride and unload safely.

Know The Code. It's Your Responsibility. For more information on skier safety and Alaska's Inherent Risk of Skiing Act, please go to AlyeskaResort.com.

- Begin with runs marked Easiest
- Advance to More Difficult
- If ability allows, use Most Difficult
- Very experienced, use Expert
- Freestyle Terrain

This system of difficulty markers is relative and only valid at this area. This system is not necessarily the same as a similarly rated trail at another ski area. Skiers/boarders should begin with the easiest trails regardless of ability level, until familiar with the trails at the area. During periods of low visibility or other inclement weather and snow conditions, the degree of difficulty of the ski/snowboard runs may.

Please observe posted SLOW ZONE areas by maintaining a speed no faster than the general flow of traffic. Fast and aggressive skiing/boarders will result in the loss of skiing privileges.

Alyeska Resort is committed to promoting slope safety. Slope users include alpine skiers, telemark skiers, snowboarders and those with disabilities

and/or specialized equipment. Always show courtesy to others and be aware that there are elements of risk in skiing/boarders that common sense and personal awareness can help reduce. Know your ability level and stay within it.
