DIRECTORY

This map is general and conceptual in nature. Refer to the degree-of-difficulty symbol for each trail's rating (green circle, blue square, black diamond). The trail and lift designations on this map supersede any previous maps or brochures. This is a rendering only; actual conditions may vary.

WARNING: You assume all risk of personal injury, death or property damage related to participation in recreational activities at this ski area.

CAUTION: Deep snow or tree wells can expose you to the risk of snow immersion injuries or fatalities. Educate yourself on how to reduce the risks and **ALWAYS SKI OR RIDE WITH A PARTNER.**

WARNING: Skiing, snowboarding and other winter recreational activities involve inherent risks of injury and death. Trail conditions vary constantly because of weather changes and ski/snowboard use. Bare spots, Stumps, ice, variations in terrain, moguls, forest growth, rocks and debris, lift towers, snowmaking and grooming equipment, and other natural and man-made obstacles and hazards may exist throughout the area. You must assume the risks of personal injury and death related to participation in recreational activities within this ski area. Violators of hit-and-run skiing may be processed under Sec. 65331 of the California State Penal Code. It is unlawful for persons under the influence of an alcoholic beverage or any drug, or under the combined influence, to ski in a ski area (Sec. 12,134, Placer County ordinance). Do not ski into "CLOSED" areas or beyond ski area boundaries; you may be prosecuted (CC 602.0) and held liable for the cost of search and rescue.

WARNING, RISK OF AVALANCHE: While snow safety and avalanche mitigation efforts help reduce the risk of avalanches, avalanches and snow slides may occur at ski areas, both inside and outside of the posted boundaries. Avalanches are an inherent risk of the sport due to the nature of snow and its application on steep, mountainous terrain. Become educated on how to reduce the risk of injury or death from avalanches through our own actions and awareness. Visit www.avalanche.org or contact Northstar California ski patrol for further information on the risks and prevention of avalanche-related injuries or death.

Heads Up – Know the Code, It's Your Responsibility

Your Responsibility Code: Northstar California is committed to promoting skier safety. In addition to people using traditional alpine ski equipment, you may be joined on the slopes by snowboarders, telemark skiers or cross-country skiers, skiers with disabilities, skiers with specialized equipment and others. Always show courtesy to others and be aware that there are elements of risk in skiing and snowboarding that common sense and personal awareness can help reduce. Know your ability level and stay within it. Observe "Your Responsibility Code" listed below and share with other skiers the responsibility for a great skiing experience.

1. Always stay in a trail. You must be able to stop or avoid people or objects.
2. People ahead or downhill have the right-of-way. You must avoid them.
3. Stop only where you are visible from above and do not restrict traffic.
4. Look uphill and avoid others before starting downhill or entering a trail.
5. You must prevent runaway equipment.
6. Read and obey all signs, warnings, and hazard markers.
7. Keep off closed trails and out of closed areas.
8. You must know how and be able to load, ride, and unload lifts safely. If you need assistance, ask the lift attendant.
9. Do not use lifts or terrain when impaired by alcohol or drugs.
10. If you are involved in a collision or incident, share your contact information with each other and a ski area employee.

Unmarked Obstacles. Be advised that all poles and/or flags, fencing, signage and padding on equipment or objects or other forms of marking devices are used by the ski area to inform you of the presence or location of a potential obstacle or hazard. These markers are no guarantee of your safety and will not protect you from injury. It is part of your responsibility under Your Responsibility Code to avoid all obstacles or hazards, including those that are so marked.

Ski Safety. Under the law, any individual who engages in the sport of skiing, alpine or Nordic, or any person who is within the boundaries of a ski area for the purpose of observing any skiing activity, accepts and assumes the inherent risk of skiing insofar as they are reasonably obvious, expected, or necessary.
